

# PROJECT CONCEPTING TOOL

STEP 4

**Refine** your hypothesis:

**Reminder:** Specify how the data source will address the problem, and how you'll know if it works:

Since we know **[A facts]** about **[X data source(s)]**, we believe we can use **[B specific data]** to see **[C problem indicator]**. We will validate our results by comparing **[D existing data]**.

**A Facts:**

**X Data Sources:**

**B Specific Data:**

**C Problem Indicator:**

**D Existing Data:**

Since we know \_\_\_\_\_ about \_\_\_\_\_, we believe we can use \_\_\_\_\_ to see \_\_\_\_\_. We will validate our results by comparing \_\_\_\_\_.

**NOTES:**
